- and records necessary to protect RentList and its Users.

Information retained following account deletion will remain subject to this Privacy Policy for as long as RentList continues to process it.

Where information is no longer reasonably necessary and no legal or legitimate reason for retention remains, RentList may delete, anonymize, or de-identify it.

73. Account Deletion Requests

Users may request deletion of their RentList account through available Platform settings, where provided, or by contacting RentList at:

Rentlistco@gmail.com

Before processing a deletion request, RentList may take reasonable steps to verify the identity of the person making the request.

RentList may also require certain outstanding matters to be addressed before an account can be fully closed, including:

- active Rental Transactions;
- pending payments or payouts;
- unresolved refunds;
- open disputes;
- pending claims;
- chargebacks;
- investigations;
- or other unresolved obligations.

Account deletion requests are subject to applicable law and the retention provisions described in this Privacy Policy.

74. Effect of Account Deletion on Listings and Public Content

When an account is deleted or closed, RentList may remove or deactivate active Listings and certain profile information associated with that account.

However, some information may remain visible or retained where reasonably necessary to preserve marketplace integrity, transaction records, or the rights of other Users.

For example, reviews, ratings, transaction-related records, or content associated with completed Rental Transactions may not necessarily be removed solely because a User deletes an account.

Where appropriate, RentList may remove identifying profile information, anonymize certain information, or otherwise limit its association with a deleted account.

Information previously indexed or cached by independent search engines or other third parties may remain available outside RentList's control even after it has been removed from the Platform.

75. Backup and Archived Information

Personal Information may remain temporarily in backup, disaster recovery, security, or archival systems after it has been deleted from active Platform systems.

Backup copies may be retained for limited periods consistent with RentList's security, disaster recovery, business continuity, and legal requirements.

Where information remains in backup systems, it may not be immediately accessible or separately deleted unless required by applicable law.

76. Security of Personal Information

RentList uses reasonable administrative, technical, and organizational safeguards designed to protect Personal Information against:

- unauthorized access;
- unauthorized use;

- unauthorized disclosure;
- alteration;
- loss;
- destruction;
- fraud;
- and other unauthorized or unlawful processing.

Depending on the nature of the information and Platform systems, safeguards may include measures relating to:

- access controls;
- authentication;
- encryption where appropriate;
- secure communications;
- system monitoring;
- security logging;
- infrastructure security;
- vulnerability management;
- fraud detection;
- employee or contractor access restrictions;
- and Service Provider security requirements.

RentList evaluates security measures based on factors including the nature and sensitivity of the information, available technology, risks, and applicable legal requirements.

77. No Method of Security Is Guaranteed

No website, mobile application, electronic transmission, database, or information system can be guaranteed to be completely secure.

Although RentList uses safeguards designed to protect Personal Information, RentList cannot guarantee absolute security or that unauthorized third parties will never defeat security measures.

Users are responsible for taking reasonable steps to protect their own accounts, devices, passwords, authentication credentials, and Personal Information.

Users should promptly notify RentList if they believe their account has been compromised or accessed without authorization.

78. Account Security

Users should:

- use strong and unique passwords;
- protect authentication credentials;
- avoid sharing account access;
- maintain control of devices used to access RentList;
- keep contact information current;
- and notify RentList promptly of suspected unauthorized activity.

RentList may temporarily restrict access to an account, require additional authentication or verification, reset credentials, or take other reasonable security measures where suspicious or unauthorized activity is detected.

79. Security Incidents and Data Breaches

If RentList becomes aware of a security incident involving Personal Information, RentList may investigate the incident and take reasonable measures to:

- contain the incident;
- protect affected systems;
- reduce potential harm;
- preserve relevant evidence;
- restore Platform security;
- and prevent similar incidents.

Where required by applicable law, RentList will notify affected individuals, governmental authorities, regulators, or other appropriate parties.

The timing, content, and method of any notification will be determined in accordance with applicable law.

80. International Processing and Transfers

RentList is based in the United States.

Personal Information may be processed, stored, or transferred in the United States and in other countries where RentList or its Service Providers operate.

Privacy and data protection laws in those jurisdictions may differ from the laws of the jurisdiction where you reside.

Where applicable law requires safeguards for international transfers of Personal Information, RentList will use appropriate mechanisms or safeguards as required by applicable law.

Additional regional privacy terms may apply to Users in certain jurisdictions.

81. Your Privacy Rights

Depending on where you reside and applicable law, you may have certain rights regarding your Personal Information.

These rights may include the right to:

- request access to Personal Information;
- request information regarding categories of Personal Information collected;
- request correction of inaccurate Personal Information;
- request deletion of Personal Information;
- request a copy of certain Personal Information;
- request data portability;
- object to or restrict certain processing;
- withdraw consent where processing is based on consent;
- opt out of certain targeted advertising;
- opt out of certain sales or sharing of Personal Information;
- limit certain uses or disclosures of Sensitive Personal Information;
- appeal certain decisions regarding privacy requests;
- and exercise rights relating to automated decision-making or profiling where provided by applicable law.

The availability and scope of these rights depend on applicable law and may be subject to exceptions.

82. How to Exercise Privacy Rights

To exercise an applicable privacy right, you may contact RentList at:

Rentlistco@gmail.com

Where available, RentList may also provide privacy controls or request mechanisms through the Platform.

A privacy request should provide sufficient information to allow RentList to understand the request and, where necessary, reasonably verify the identity of the person making it.

RentList may request additional information where reasonably necessary to verify identity, prevent fraud, or protect Personal Information from unauthorized disclosure.

We will respond to verified privacy requests within the time required by applicable law.

83. Authorized Agents

Where permitted by applicable law, you may authorize another person or entity to submit a privacy request on your behalf.

RentList may require:

- proof that the agent is authorized to act on your behalf;
- verification of your identity;
- direct confirmation from you;
- or other information permitted by applicable law.

RentList may deny a request from an agent if appropriate authorization or verification cannot be established, subject to applicable law.

84. Verification of Privacy Requests

RentList may verify privacy requests to protect Personal Information and prevent fraudulent or unauthorized requests.

Verification may depend on the nature of the request and the sensitivity of the information involved.

We may compare information provided in the request with information already maintained by RentList.

RentList will not require more information than reasonably necessary for verification, subject to applicable law.

85. Exceptions to Privacy Requests

Certain Personal Information may not be eligible for access, correction, deletion, or other requested action where an exception applies under applicable law.

For example, RentList may retain or continue processing information where reasonably necessary to:

- complete a Rental Transaction;
- maintain transaction records;
- detect or prevent fraud;
- maintain security;
- resolve disputes or claims;
- process payments, refunds, or chargebacks;
- comply with tax, accounting, or financial obligations;
- comply with applicable law;
- exercise or defend legal claims;
- protect the rights and safety of Users;
- or perform another activity permitted by applicable law.

Where required, RentList will explain the basis for denying or limiting a privacy request.

86. Non-Discrimination

RentList will not unlawfully discriminate against a User for exercising privacy rights provided by applicable law.

Exercise of a privacy right will not result in unlawful denial of goods or services, different pricing, reduced service quality, or other discriminatory treatment prohibited by applicable law.

This does not prevent RentList from making distinctions that are reasonably related to the value or availability of data where expressly permitted by applicable law.

87. California Privacy Rights

California residents may have additional rights under the California Consumer Privacy Act, as amended by the California Privacy Rights Act (“CCPA/CPRA”), to the extent those laws apply to RentList and the relevant processing activity.

Depending on applicability, California residents may have the right to request:

- information about categories of Personal Information collected;
- information about sources of Personal Information;
- information about purposes for collecting, using, or disclosing Personal Information;
- information about categories of third parties to whom Personal Information is disclosed;
- access to specific pieces of Personal Information;
- correction of inaccurate Personal Information;
- deletion of Personal Information;
- portability of Personal Information;
- opt-out of the sale or sharing of Personal Information;
- limitation of certain uses or disclosures of Sensitive Personal Information;
- and protection from unlawful discrimination for exercising privacy rights.

These rights are subject to applicable definitions, limitations, and exceptions.

88. California Sale, Sharing, and Targeted Advertising Choices

As described in Part 4, RentList does not sell Personal Information to third parties for monetary compensation.

California law may define “sale” and “sharing” more broadly.

If RentList engages in processing that constitutes a sale or sharing of Personal Information under applicable California law, RentList will provide any legally required method for Users to exercise applicable opt-out rights.

Where required, this may include an appropriate privacy preference mechanism, Platform control, or “Do Not Sell or Share My Personal Information” option.

89. Global Privacy Control and Recognized Opt-Out Signals

Where required by applicable law, RentList will recognize and process legally valid browser-based opt-out preference signals, such as Global Privacy Control (“GPC”), in accordance with applicable legal requirements.

The effect of such a signal may depend on the browser, device, account status, jurisdiction, and applicable law.

90. Other U.S. State Privacy Rights

Residents of certain U.S. states may have additional privacy rights under applicable state comprehensive privacy laws.

Depending on the state and applicability of the relevant law, those rights may include:

- access;
- correction;
- deletion;
- portability;
- opt-out of targeted advertising;

- opt-out of certain sales of Personal Information;
- opt-out of certain profiling;
- and the right to appeal certain privacy request decisions.

RentList will process applicable state privacy requests in accordance with the laws that apply to RentList and the requesting individual.

91. Appeals

Where applicable law provides a right to appeal RentList's decision regarding a privacy request, you may submit an appeal by contacting:

Rentlistco@gmail.com

Please identify the original privacy request and explain that you are requesting an appeal.

RentList will review and respond to eligible appeals within the period required by applicable law.

92. Marketing Choices

You may opt out of promotional email communications by using the unsubscribe mechanism included in applicable marketing emails.

Where available, you may also manage communication preferences through Platform settings.

Opting out of promotional communications does not prevent RentList from sending necessary operational communications, including communications regarding:

- your account;
- security;
- Rental Transactions;
- payments;
- payouts;
- verification;
- disputes;
- customer support;
- policy updates;
- or legal notices.

93. Cookie and Tracking Choices

Depending on the technologies used by RentList and applicable law, Users may be able to control certain cookies or similar technologies through:

- Platform cookie controls;
- privacy settings;
- browser settings;
- device settings;
- legally recognized opt-out preference signals;
- or other mechanisms made available by RentList.

Blocking certain technologies may affect Platform functionality.

94. Do Not Track

Some browsers offer a "Do Not Track" ("DNT") setting.

Because there is not a single universally adopted technical standard governing all DNT signals, RentList's response to DNT signals may vary.

Where a browser or device signal constitutes a legally recognized opt-out preference signal under applicable law, RentList will process that signal as required by law.

95. Complaints and Questions

If you have a question, concern, or complaint regarding RentList's processing of Personal Information or this Privacy Policy, you may contact:

RentList Corp.

Website: <https://rent-list.com>

Email: Rentlistco@gmail.com

Nothing in this Privacy Policy limits any right you may have to contact an applicable governmental authority or privacy regulator where provided by law.

PART 6 — THIRD-PARTY SERVICES, REGIONAL PRIVACY TERMS, POLICY UPDATES, AND CONTACT

96. Third-Party Websites and Services

The Platform may contain links to, integrate with, or allow Users to interact with websites, applications, products, or services operated by independent third parties.

These Third-Party Services may include, where applicable:

- payment and payout providers;
- identity verification providers;
- mapping or location services;
- communications providers;
- analytics providers;
- social media platforms;
- authentication providers;
- insurance or protection providers;
- business partners;
- and other external services.

Third-Party Services are operated independently from RentList.

When you access or use a Third-Party Service, that third party may collect, use, store, disclose, or otherwise process Personal Information under its own privacy policy and terms.

RentList does not control the independent privacy practices of Third-Party Services and is not responsible for those practices except to the extent required by applicable law.

We encourage Users to review the privacy policies and terms of Third-Party Services before providing Personal Information to them.

97. Information Provided Directly to Third Parties

In some circumstances, information may be provided directly by you to an independent third party rather than to RentList.

For example, payment information, identity verification documents, financial information, or other information may be entered directly into a system operated by a third-party provider.

In those circumstances, the third party may independently determine how it processes the information under its own privacy policy and legal obligations.

RentList may receive limited information from that provider, such as:

- transaction status;
- payment confirmation;
- verification status;
- account identifiers;
- fraud or risk indicators;
- or other information necessary to provide the relevant Platform functionality.

The information RentList receives may be different from the complete information collected directly by the third-party provider.

98. Third-Party Links

The Platform may contain links to websites or services that RentList does not own or operate.

The inclusion of a third-party link does not necessarily mean that RentList endorses or controls that third party.

If you leave the RentList Platform and access an independent website or service, your activity is governed by that third party's terms and privacy practices.

Users should exercise appropriate care when providing Personal Information outside the RentList Platform.

99. Social Media and Third-Party Authentication

Where RentList allows Users to interact with the Platform through social media accounts, third-party authentication services, or other external accounts, information may be exchanged between RentList and the applicable third party.

Depending on the integration and permissions you authorize, RentList may receive information such as:

- name;
- email address;
- profile photograph;
- third-party account identifier;
- and authentication-related information.

RentList will process information received through such integrations in accordance with this Privacy Policy.

The third party's processing of your information remains subject to its own privacy policy.

100. Regional Privacy Terms

Privacy and data protection laws vary by jurisdiction.

Certain Users may be entitled to additional disclosures, rights, or protections based on where they reside or where RentList operates.

Where required by applicable law, RentList may provide:

- jurisdiction-specific privacy notices;
- supplemental privacy terms;
- additional disclosures;
- consent mechanisms;
- opt-out mechanisms;
- or other legally required information.

Such supplemental terms form part of this Privacy Policy for the Users to whom they apply.

If a regional privacy supplement conflicts with this Privacy Policy regarding a matter governed by applicable regional law, the applicable regional supplement will control to the extent required by law.

101. Users Outside the United States

RentList is based in the United States.

If you access or use RentList from outside the United States, your Personal Information may be transferred to, stored in, or processed in the United States or other jurisdictions where RentList or its Service Providers operate.

Where required by applicable law, RentList will implement appropriate safeguards for international transfers of Personal Information.

Users in certain jurisdictions may have additional privacy rights under applicable local laws.

RentList may provide additional regional privacy notices where required as the Platform becomes available in additional jurisdictions.

102. European Economic Area, United Kingdom, and Similar Jurisdictions

If RentList offers the Platform to individuals in jurisdictions where laws such as the European Union General Data Protection Regulation ("GDPR"), United Kingdom GDPR, or similar data protection laws apply to RentList's processing, additional requirements may apply.

Depending on the processing activity and applicable law, RentList may process Personal Information based on one or more lawful grounds, including:

- performance of a contract or taking steps at your request before entering into a contract;
- compliance with a legal obligation;
- legitimate interests pursued by RentList or another party, where those interests are not overridden by applicable privacy rights;
- consent, where required;
- protection of vital interests;
- or another lawful basis recognized by applicable law.

Where applicable, individuals may have rights including:

- access;
- correction;
- deletion;
- restriction of processing;
- data portability;
- objection to certain processing;
- withdrawal of consent;
- and rights relating to certain automated decision-making.

Where required by applicable law, RentList will provide additional information regarding applicable lawful bases, international transfer safeguards, supervisory authority rights, and other required regional disclosures.

Nothing in this section represents that the GDPR or UK GDPR necessarily applies to every RentList User or every processing activity.

103. Privacy Rights in Other Countries

Users in countries outside the United States may have privacy rights under applicable national or regional laws.

Where such laws apply to RentList, we will respond to eligible requests and provide required disclosures in accordance with applicable law.

The specific rights, exceptions, verification requirements, and response periods may differ by jurisdiction.

104. Children's Privacy

RentList is intended for individuals who are at least eighteen (18) years old.

Individuals under 18 may not independently create RentList accounts or enter into Rental Transactions through the Platform.

RentList does not knowingly collect Personal Information directly from children for the purpose of creating or maintaining a RentList account.

If RentList learns that an individual under 18 has provided Personal Information in violation of this Policy, RentList may take reasonable steps to remove the information and restrict or terminate the associated account, subject to applicable law and legitimate retention requirements.

A parent or legal guardian who believes that a minor has improperly provided Personal Information to RentList may contact:

Rentlistco@gmail.com

This section does not prohibit an adult User from providing limited information about another person, including a minor, where reasonably necessary for a legitimate Rental Transaction, Service, Experience, safety matter, or other permitted Platform purpose and where the User is authorized to provide that information.

105. Changes to this Privacy Policy

RentList may revise this Privacy Policy from time to time to reflect:

- changes to the Platform;
- new products or features;
- changes to our privacy practices;
- technological developments;
- changes to Service Providers or Platform operations;
- legal or regulatory developments;
- security considerations;
- or other legitimate business purposes.

When we make material changes, we may provide notice through the Platform, by email, through an in-app notification, or through another reasonable method where required or appropriate.

The "Last Updated" date at the beginning of this Privacy Policy indicates when the Policy was most recently revised.

Where applicable law requires consent before a material change can apply to particular processing, RentList will obtain such consent as required.

106. Previous Versions

RentList may maintain prior versions of this Privacy Policy where reasonably appropriate or required by law.

Unless otherwise required by applicable law, the version of the Privacy Policy in effect at the relevant time governs RentList's processing activities during that period.

107. Governing Law

To the extent permitted by applicable law, this Privacy Policy is governed by the laws of the State of California and applicable federal laws of the United States, without regard to conflict-of-law principles.

This provision does not limit any mandatory privacy or data protection rights that apply to an individual under the laws of another jurisdiction.

Disputes concerning use of the Platform may also be subject to the dispute resolution provisions contained in the RentList Terms of Use.

108. Severability

If any provision of this Privacy Policy is determined to be invalid, unlawful, or unenforceable, that provision will be interpreted or limited to the extent necessary to make it enforceable where permitted by law.

The remaining provisions will continue in full force and effect.

109. No Waiver of Privacy Rights

Nothing in this Privacy Policy is intended to waive, restrict, or eliminate any privacy right that cannot lawfully be waived under applicable law.

Where applicable law provides greater protection than this Privacy Policy, RentList will comply with the applicable legal requirement.

110. Contact RentList

Questions regarding this Privacy Policy or RentList's privacy practices may be directed to:

RentList may request reasonable verification before providing access to, deleting, correcting, or otherwise acting upon Personal Information.

111. Entire Privacy Policy

This Privacy Policy, together with any applicable regional privacy supplements or notices expressly incorporated into it, constitutes RentList's privacy notice concerning the processing activities described herein.

This Privacy Policy should be read together with the RentList Terms of Use and any additional policies applicable to particular Platform features.

Nothing in this Privacy Policy creates contractual rights beyond those required by applicable law or expressly provided by RentList's Terms of Use.

PART 7 — ADDITIONAL PRIVACY SAFEGUARDS AND AUTOMATED TECHNOLOGIES

112. Data Minimization

RentList seeks to collect and process Personal Information that is reasonably necessary and proportionate for the purposes described in this Privacy Policy.

Depending on the applicable Platform feature, RentList may limit the collection, use, retention, or disclosure of Personal Information based on:

- the purpose for which the information is needed;
- the sensitivity of the information;

- the nature of the applicable Rental Transaction;

RentList does not use Sensitive Personal Information for materially unrelated purposes without an appropriate legal basis.

Where applicable law provides rights to limit certain uses or disclosures of Sensitive Personal Information, RentList will provide those rights as required.

114. Government Identification and Verification Data

Where identity verification is required or offered, RentList or an independent verification provider may process government-issued identification or related verification information.

Such information should be collected and retained only as reasonably necessary for legitimate verification, fraud prevention, safety, security, transaction, or legal purposes.

Where verification is performed by an independent provider, RentList may receive only limited information, such as:

- whether verification was successful;
- verification status;
- identity confirmation;
- fraud or risk indicators;
- or other information necessary to administer the verification process.

RentList may not receive or retain the complete identification document where the verification process is performed directly by an independent provider.

115. Biometric and Facial Verification Information

Certain identity verification technologies may involve facial images, facial comparison, liveness detection, or other technologies that may be regulated as biometric information in some jurisdictions.

If RentList implements a verification process involving information legally classified as biometric information, RentList will provide any notices, obtain any consents, and follow any collection, use, disclosure, and retention requirements required by applicable law.

Nothing in this Privacy Policy means that RentList currently collects or stores biometric identifiers directly.

Independent identity verification providers may process verification information under their own privacy policies and applicable legal requirements.

116. Artificial Intelligence and Machine Learning

RentList may use artificial intelligence (“AI”), machine learning, algorithms, or similar automated technologies to support Platform functionality and operations.

Depending on the technologies implemented, such systems may assist with:

- search and discovery;
- Listing organization or ranking;
- recommendations;
- fraud detection;
- scam and spam prevention;
- trust and safety;
- cybersecurity;
- identity verification;
- content moderation;
- customer support;
- analysis of Platform activity;

- and improvement of Platform functionality.

The categories of Personal Information processed by such technologies will depend on the particular functionality and will be subject to this Privacy Policy.

117. Automated Decision-Making and Profiling

RentList may use automated systems to assist with decisions or assessments relating to:

- fraud risk;
- account security;
- suspicious transactions;
- Platform abuse;
- content moderation;
- search ranking;
- recommendations;
- verification;
- or other Platform operations.

Automated systems may generate scores, classifications, recommendations, alerts, or other indicators that assist RentList in operating and protecting the Platform.

Where applicable law provides Users with rights relating to automated decision-making or profiling, including rights to information, opt out, object, obtain human review, or challenge certain decisions, RentList will provide those rights as required by applicable law.

RentList does not represent that every decision concerning a User is made automatically.

118. Human Review

RentList may use human review in connection with automated systems where appropriate.

Human review may be used to:

- investigate suspected fraud;
- review account restrictions;
- evaluate safety reports;
- investigate disputes or claims;
- review potentially prohibited content;
- respond to User appeals;
- evaluate verification issues;
- and review other matters requiring additional consideration.

Where required by applicable law, RentList will provide an appropriate mechanism for human review of eligible automated decisions.

119. Content Moderation and Platform Safety

These activities may involve automated tools, human review, or a combination of both.

RentList does not guarantee that every prohibited, fraudulent, harmful, or unlawful activity will be detected before it affects a User.

120. Accuracy of Personal Information

RentList seeks to maintain Personal Information that is reasonably accurate and appropriate for the purposes for which it is processed.

Users are responsible for maintaining accurate account, contact, profile, Listing, payment, payout, and transaction information where they control that information.

Users should update information when it becomes inaccurate or outdated.

Where applicable law provides a right to correct inaccurate Personal Information, Users may exercise that right as described in Part 5.

RentList may disclose Personal Information where we reasonably determine that disclosure is required or permitted by applicable law.

Where legally permitted and reasonably appropriate, RentList may evaluate requests to determine whether they:

- originate from an appropriate authority;

- have a valid legal basis;
- identify the information requested;
- and are appropriately limited in scope.

RentList may preserve information in response to a valid preservation request or where otherwise required or permitted by law.

RentList may be prohibited by law from notifying affected Users of certain governmental or law enforcement requests.

124. Emergency Requests

RentList may voluntarily disclose Personal Information where permitted by law if we reasonably believe an emergency involving a risk of death, serious physical injury, or other serious harm requires disclosure without ordinary legal process.

RentList may evaluate emergency requests based on the circumstances and applicable law.

125. Legal Claims and Dispute Preservation

RentList may retain, preserve, use, or disclose Personal Information where reasonably necessary to:

- establish legal rights;
- exercise legal rights;
- defend legal claims;
- enforce agreements;
- investigate disputes;
- respond to claims;
- preserve evidence;
- or comply with legal holds.

Information subject to a legal hold or preservation obligation may be retained longer than RentList's ordinary retention period.

126. Business Continuity and Disaster Recovery

RentList may maintain backup systems and disaster recovery processes designed to preserve Platform availability, security, and business continuity.

Personal Information may be included in encrypted or otherwise protected backups.

Backup information may remain for a limited period after deletion from active systems and may be removed through RentList's ordinary backup lifecycle unless longer retention is required by law.

127. Corporate Access to Personal Information

Depending on the feature, considerations may include:

- limiting unnecessary collection;
- limiting unnecessary disclosure;
- providing appropriate User controls;
- protecting sensitive information;
- maintaining security;
- establishing appropriate retention practices;
- and providing legally required notices or choices.

130. Changes in Technology and Platform Features

RentList may introduce new technologies, Platform features, integrations, or processing activities over time.

Before materially different processing of Personal Information is implemented, RentList may evaluate whether:

- this Privacy Policy adequately describes the processing;
- additional notice is required;
- User consent is required;
- additional privacy controls are required;
- or additional safeguards should be implemented.

Where required by applicable law, RentList will update this Privacy Policy or provide additional notice before materially different processing occurs.

131. No Circumvention of Privacy Rights

RentList will not intentionally use contractual terms, technical measures, or Platform design for the purpose of unlawfully preventing Users from exercising privacy rights provided by applicable law.

Nothing in this Privacy Policy limits rights that cannot legally be limited or waived.

PART 8 — FINAL PRIVACY AND LEGAL PROVISIONS

133. Relationship Between Users

RentList operates a marketplace that enables Users to interact and enter into Rental Transactions with one another.

When an Owner, Renter, business, Service provider, Experience provider, or other User independently collects or processes Personal Information outside RentList's instructions or outside the Platform, that User may be independently responsible for complying with applicable privacy and data protection laws.

RentList does not control how another User independently processes Personal Information after receiving it for a legitimate Rental Transaction or other authorized Platform interaction.

Users may not use Personal Information obtained through RentList for purposes unrelated to the applicable transaction or interaction, including unauthorized marketing, data harvesting, resale, harassment, discrimination, fraud, or other unlawful purposes.

134. User Responsibility for Information Provided to RentList

Users are responsible for ensuring that Personal Information they submit to RentList is provided lawfully.

If you provide Personal Information concerning another individual, you represent that you are authorized to provide that information or otherwise have a lawful basis to do so.

Users should provide only information reasonably necessary for the applicable Listing, Rental Transaction, Service, Experience, customer support request, dispute, claim, or other Platform purpose.

135. User-Generated Content and Personal Information

Users should carefully consider the Personal Information they include in:

- where processing occurs;
- the nature of the Personal Information;
- the purpose of processing;

Nothing in this Privacy Policy grants a User ownership rights in RentList's systems, databases, analytics, security information, fraud prevention systems, aggregated information, or de-identified information.

This provision does not limit any privacy, access, portability, deletion, or other rights provided by applicable law.

148. Severability

If any provision of this Privacy Policy is found to be invalid, unlawful, or unenforceable, that provision will be interpreted or limited to the minimum extent necessary where permitted by law.

The remaining provisions will remain in effect.

149. No Waiver

RentList's failure to enforce any provision of this Privacy Policy does not constitute a waiver of that provision or of any right available to RentList.

Nothing in this section permits RentList to waive or restrict a User's privacy rights where such rights cannot lawfully be waived.
